

Real Estate Industry Professional Liability for:

- Real Estate Brokers
- Property Managers
- Real Estate Appraisers
- Title, Abstractors and Escrow Agents
- Mortgage Brokerage, Business Brokerage Services and Construction Development

If you are in the business of selling, renting, or appraising Real Estate – or work in the many aspects of servicing the Real Estate industry – having the correct insurance protection is necessary for you and your business!

Your clients trust the knowledge and services your business provides, giving them accurate information about the properties you are representing, prospecting, or servicing for them.

However, errors happen. If you miss an important detail that results in a financial loss to your client, they may sue your business for those damages. Errors and omissions insurance, also known as E&O insurance or professional liability insurance, can help protect you and your business from these types of claims.

What Does Professional Liability Insurance Cover?

- Negligence
- Misrepresentation
- Inaccurate advice

Even if you did not do anything wrong, your client can still sue your business if they believe you made a mistake. Without the proper coverage, you may have to pay expensive legal defense costs, out of pocket.

It's important to remember that professional liability insurance doesn't cover everything. If you are interested in Workers' Compensation or Cyber Insurance, let us know and we can look to provide quotes for that coverage also.

You've worked hard to grow your business. Don't leave yourself without the protection you need to protect it and your clients.
