

Flood Insurance for Homeowners

What's Covered?

Floods are the nation's most common and costly natural disaster, with 98% of counties in the United States having experienced a flood. Did you know that most homeowners policies do not include coverage for all forms of water damage, in fact most do not cover flooding?

Flood insurance can fill those gaps. A National Flood Insurance Program (NFIP) flood insurance policy insures against damage sustained during flooding that covers two or more properties or two or more acres of normally dry land. The NFIP encourages people to purchase both building and contents coverage for the broadest protection.
