

Government Affairs

What is MAIA doing to help the independent agency system in Massachusetts?

Our advocacy team and legal representatives in Boston and Washington, DC, engage in constant efforts to make the insurance industry more transparent, more competitive, less burdensome, and fairer for all.

We have an excellent track record of "wins" achieved by:

- Leveraging the trust, respect, and clout we have earned through years of relationship building and dialogue.
- Testifying for or against legislation and regulations that impact independent agents and their customers.
- Researching, analyzing, and educating our members on public policy issues.
- Mobilizing our statewide, grassroots network of over 1,000 member agents to help amplify our message.

Annual fundraising campaigns, including the MAIA Advocacy Fund and the non-partisan Big "I" InsurPac, help defray the costs of this important work.

As a member of MAIA and the Big "I," you can be assured that your voice will be heard, loud and clear, on Beacon Hill and Capitol Hill.
