"First off, Briteco is a tremendous value!! Significantly lower costs than homeowners or or the other major jewelry insurer (JM) for exactly the same coverage. Their employees are capable, efficient and a pleasure to deal with. Don't look any further for coverage."

**Gary P.**

"I just got engaged and picked Briteco for my insurance because the customer service was amazing! I spoke with Eric and they were so helpful with the many many questions I had! I feel more comfortable walking around know my ring is insured with such a great company!"

## Who Appreciate Briteco's White-Glove Claims Service

"Great AND affordable insurance, not an oxymoron with BriteCo. My fiancé lost the center stone in her engagement ring and Christine at BriteCo made getting it replaced a breeze. Trust me, the peace of mind by itself is worth the money."

**Jonathan P.**

"Christine and the rest of the BriteCo team were great to work with through a tough situation. Very professional and always quick to react and answer questions. While I hope to never have to make another claim, I know I will be taken care of if I do."

“ Easy application process and they offer a very reasonably priced appraisal which can be done virtually if you do not have one for your jewelry. Better priced than adding the jewelry to my homeowners policy and I don't have to worry about affecting my homeowners premium if for whatever reason I need to use the jewelry policy. ”
